EXPERIENCE

Software Development Engineer 1,

MakeO Healthcare Technologies Pvt Ltd (toothsi) | [makeo.app](#) | [makeo.me](#)

DEC 2024 - Present

Remote, India

- Created & revamped the Toothsi homepage, leading to a 43% increase in Traffic to Lead conversion.
- Redesigned the makeO homepage, resulting in a 29% uplift in app installs to lead conversion.
- Created a user-friendly and SEO-friendly offline center locator front page to boost the brand's offline presence.
- Worked on multiple internal platforms and dashboards to streamline and simplify company processes.
- Migrated the Toothsi website from Next.js 14 to 15, enhancing performance.

Front-End Developer

Probeplus Innovative Solutions | [probeplus.in](#)

Jul 2023 - Dec 2024

Bangalore, India

- Oversaw the development of an ERP system using Angular, ensuring deadlines were met and client requirements were satisfied.
- Contributed to a healthcare-based web application that used a leading wearable biosensor for real-time patient monitoring via WebSocket, which is now in use in the US and India.
- Developed a restaurant management system using React.js within a short timeframe, now operating in the international market.
- Created several proof-of-concepts (POCs), which led to multiple business opportunities for the organization.

Junior Campaign Assistant (Apprentice)

Wipro Limited | [wipro.com](#)

Sep 2019 - Sep 2020

Chennai, India

- Developed responsive email marketing templates using HTML and CSS for optimal display across various email clients.
- Created reusable templates, streamlining the design process and ensuring visual consistency.
- Contributed to high email deployment rates through efficient template creation.
